

Visitor Insights

Reflections @ IMTEX

This is our first visit to IMTEX. It is a highly impressive exhibition wherein we have seen the brilliant infrastructure, world-class exhibitors and latest technologies. We are especially impressed with our visit to Blaser Swissslube and with The Liquid Tool concept.

Satbir Singh
 Lark Engineering Company India (P) Ltd

Visiting this world-class exhibition at BIEC, was a great experience for us. We came looking for a solution to reduce our overall costs. Having visited the Blaser Swissslube booth and being explained the Liquid Tool Concept, we are eager to collaborate with them.

Uday Pratap Singh
 Growth Shop
 Tata Steel Ltd

We are constantly upgrading our technology, and therefore always looking for innovative technologies. IMTEX gives a great opportunity to explore these possibilities. We visited the Blaser Swissslube booth as we have been associated with them for more than 12 years. We are delighted using the Liquid Tool, which has helped us with green manufacturing and zero disposal..
